Dr. Schutz Antislip Solutions:  
look good, last long, feel safe

# PROTECT YOURSELF FROM DAMAGES

SLIPS AND TRIPS ARE A MAJOR HAZARD FOR HEALTH AND SAFETY IN THE UK AND THROUGHOUT THE WORLD.

It is a clear requirement of UK law that floors services must not present risks to health. In every legal case brought to a UK Court a lower risk classification has been a key point of interest in determining whether a surface is safe or slippery. Dr. Schutz Antislip solutions meet and exceed the HSE standards of low risk in both wet and dry.

i

Here you can see how much damage is done in the UK alone:

**£ 500m**  
cost to employers

**33 % of all injuries**  
result in £14000 claims

**50%**  
of all accidents happen  
at the work place
