1 Identification

- · Product identifier
- · Trade name: Dr. Schutz Ultra High Shine Hard Sealer
- · Relevant identified uses of the substance or mixture and uses advised against
- SU21 Consumer uses: Private households / general public / consumers
- Sector of Use
- SU22 Professional uses: Public domain (administration, education, entertainment, services, craftsmen) • Application of the substance / the mixture Maintenance product
- · Details of the supplier of the safety data sheet

• Manufacturer/Supplier: Supplier: CC-Dr. Schutz GmbH Holbeinstraße 17 D-53175 Bonn Tel: +49 228/95 35 2-0 Fax: +49 228/95 35 2-46 E-Mail: export@dr-schutz.com

Import: Dr. Schutz NA 4701 Bath St. 46 Philadelphia PA 19137 Tel.: 001/877 2724889 E-Mail: sam@schutzna.com

3 Composition/information on ingredients

· Chemical characterization: Mixtures

• Description: Mixture of the substances listed below with nonhazardous additions.

· Dangerous components:		
	(2-Methoxymethylethoxy)-propanol	1-5%
107-21-1	ethanediol	1-5%
78-51-3	tris(2-butoxyethyl) phosphate	1-5%
27306-78-1 Poly(oxy-1,2-ethanediyl),a-acetyl-w-[3-[1,3,3,3-tetramethyl-1- [(trimethylsilyl)oxy]disiloxanyl]propoxy]		0.1-1%

4 First-aid measures

- · Description of first aid measures
- · General information: Immediately remove any clothing soiled by the product.
- · After inhalation: No special measures required.
- · After skin contact:
- Rinse with warm water.

After each cleaning use treatment creams, for very dry skin greasy ointments.

- After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor.
- · After swallowing:
- Rinse out mouth and then drink plenty of water.
- Do not induce vomiting; immediately call for medical help.
- Information for doctor:
- Most important symptoms and effects, both acute and delayed No further relevant information available.
- Indication of any immediate medical attention and special treatment needed No further relevant information available.

5 Fire-fighting measures

- Extinguishing media
- · Suitable extinguishing agents: Use fire fighting measures that suit the environment.
- · For safety reasons unsuitable extinguishing agents: Not applicable.
- Special hazards arising from the substance or mixture No further relevant information available.
- Advice for firefighters
- · Protective equipment: No special measures required.
- · Additional information

Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

6 Accidental release measures

- Personal precautions, protective equipment and emergency procedures
 Particular danger of slipping on leaked/spilled product.
 Environmental precautions:
 Prevent from spreading (e.g. by damming-in or oil barriers).
 Do not allow to enter sewers/ surface or ground water.
 Methods and material for containment and cleaning up:
 Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
 Reference to other sections
- See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment.

7 Handling and storage

- · Handling:
- · Precautions for safe handling
- Follow instructions on the label and in the Technical Product Information Sheet.
- \cdot Information about protection against explosions and fires:
- No special precautions are necessary if used correctly.
- · Conditions for safe storage, including any incompatibilities
- · Storage:
- Requirements to be met by storerooms and receptacles: Store only in the original receptacle.
- Information about storage in one common storage facility: Store away from foodstuffs.
- Further information about storage conditions: Protect from frost.

Store under lock and key and out of the reach of children.

· Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

· Additional information about design of technical systems: No further data; see item 7.

· Control parameters

Seleo degra	glove material has to be impermeable and resistant to the product/ the substance/ the preparation. ction of the glove material on consideration of the penetration times, rates of diffusion and the adation	

· Material of gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Reviewed on 09/03/2015

Trade name: Dr. Schutz Ultra High Shine Hard Sealer

· Penetration time of glove material

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

• Eye protection:

Printing date 09/03/2015

Where there is a danger of the eyes coming into contact with splashes of liquid (i.e. when refilling larger quantities), safety goggles according to EN 166 (i.e. goggles with side shields) are recommended.

• Body protection: Not required.

· Limitation and supervision of exposure into the environment

Follow instructions for use, dosage and waste disposal.

10 Stability and reactivity

· Reactivity see section "Possibility of hazardous reactions".

- · Chemical stability No information available.
- Thermal decomposition / conditions to be avoided: Protect from frost.

No decomposition if used and stored according to specifications.

- Possibility of hazardous reactions No dangerous reactions known.
- Conditions to avoid No further relevant information available.
- Incompatible materials: No dangerous reactions known.
- · Hazardous decomposition products: Danger of toxic pyrolysis products.

11 Toxicological information

- · Information on toxicological effects
- · Acute toxicity:

· LD/LC50 values that are relevant for classification:

107-21-1	107-21-1 ethanediol					
Oral	LD50	4000 mg/kg (rat)				
Dermal	LD50	>3500 mg/kg (mouse)				
		10600 mg/kg (rabbit)				
78-51-3 tr	78-51-3 tris(2-butoxyethyl) phosphate					
Oral	LD50	>2000 mg/kg (rat)				
Dermal	LD50	>2000 mg/kg (rabbit)				
Inhalative	LC50/4h	>6.4 mg/l (rat)				

· Primary irritant effect:

- on the skin: No data available.
- on the eye: No data available.
- Sensitization: No sensitizing effects known.
- · Additional toxicological information:

The product is not subject to classification according to internally approved calculation methods for preparations:

When used and handled according to specifications, the product does not have any harmful effects according to our experience and the information provided to us.
