## Product-Information

### Active Cleaner R 280

#### 1. Product Description

An active cleaning agent for the removal of severe dirt, fat and grease, without affecting polymer sealers (intermediate cleaning).

#### 2. Areas of Application

Vinyl, linoleum and rubber flooring.

#### 3. Method of Application

##### Cleaning after installation:

Remove coarse dirt with a sweeping brush or vacuum cleaner. Dilute Active Cleaner R 280 with water in a ratio of between 1:5 and 1:10. For low levels of building dirt adjust the strength of the solution as appropriate. Apply the cleaning solution to the floor area, distribute and allow to stand for approx. 10 minutes. Clean the floor surface using a scrubber, Padmaster System or Monodisc SRP1 (+ suitable pad or scrubbing brush). Take up the loosened dirt with a Spray Extractor fitted with a hard floor adapter or with a rubber blade and an absorbent wide-headed mop. Mop the floor with clear water until completely neutralised.

**Consumption:** 1 l = 100 m<sup>2</sup>

##### Intermediate Cleaning:

Dilute Active Cleaner R 280 with water in a ratio of between 1:50 and 1:100. Clean the floor surface using a scrubber, Padmaster System or Monodisc SRP1 (+ red pad or scrubbing brush). Take up the loosened dirt with a Spray Extractor fitted with a hard floor adapter or with an absorbent wide-headed mop. In cases of slight soiling, mop with Active Cleaner R 280 diluted in a ratio of 1:200.

**Consumption:** 1 l = 400 m<sup>2</sup>

**Attention:** Do not spray sensitive surfaces (e.g., wood, metal, varnished/lacquered surfaces) with the cleaning solution. Active Cleaner R 280 does not loosen polymerised protective films. For this purpose use Clean and Strip or Super Basic Cleaner

## Active Cleaner R 280

### 4. Technical Data

pH-level: approx. 8.5 (concentrate)

Product code for cleaning and care products (Giscode): GE 50

Data on ingredients (EC recommendation): 5-15% anionic surfactants, less than 5% non-ionic surfactants, less than 5% amphoteric surfactants. Contains preservatives. Other ingredients: Alcohol, aromas. UBA 0210 0178

Active Cleaner R 280 should be stored in a cool, dry place in its closed original container. Keep locked up and out of the reach of children.

### 5. Quality Inspection

Certified in Germany by the Forschungs- und Prüfinstitut für Facility Management GmbH, Metzingen (FIGR)

### 6. Unit Sizes

6 x 750 ml bottle

5 l canister

10 l canister

Art.-No. 02170750

Art.-No. 02170005

Art.-No. 02170010
