## Product-Information

### Alibaba Stain Remover

#### 1. Product Description

Intended for the removal of water-soluble stains, this product is particularly gentle to dyes and fibres. Solvent free. Does not degrease treated floor coverings.

#### 2. Areas of Application

Natural fibre carpets and oriental carpets (for instance, wool, silk, coir, jute, sisal).

#### 3. Method of Application

##### Stain removal:

Spray Alibaba Stain Remover onto a soft, absorbent cloth and loosen the stain by dabbing it with this cloth, working from the edges of the stain towards the centre. Remove loosened dirt by dabbing with a dry part of the cloth. Then treat with clear water and subsequently dab dry. If necessary, place the cloth on the treated area, weigh it down somewhat and allow it to stand for a time until the liquid has been removed completely from the carpet.

**Note:** Do not inhale fumes. Before use, test the flooring with Alibaba Stain Remover on an inconspicuous area for colourfastness, water resistance and material suitability. Reactions in the carpet fibres caused by the presence of stains may limit the effectiveness of Alibaba Stain Remover.

#### 4. Technical Data

pH level: 5.5 (concentrate)

Data on ingredients (EC recommendation): less than 5% anionic tensides. Contains preservatives. Other ingredients: care components, additives and perfumes.

Alibaba Stain Remover should be stored in a cool, dry place in its closed original container. Protect from frost. Keep locked up and out of the reach of children.

#### 5. Unit Sizes

6 x 200 ml bottle with atomiser

Art.-No. 1330020016
