Product-Information

Baygard Carpet Protection Spray

1. Product Description

Provides long-lasting anti-dirt protection for textile floor coverings, wall coverings and wallpaper with a textile finish. Envelops the fibres in an invisible, dirt-resistant film, stabilises carpet pile, prevents felting and fading.

2. Areas of Application

Floor coverings (carpets) of polyamid, wool, cotton, polyacryl, polypropylene etc. or mixture of them, upholstery and textile wall-coverings.

3. Method of Application

On **new** clean carpet, textile wall-covering or upholstery spray Baygard Carpet Protection Spray evenly and crosswise, i.e. from left to right, up and down.

Soiled carpets must first be cleaned thoroughly with Concentrated Carpet Cleaner before application of Baygard Carpet Protection Spray. Spray product onto the still damp surface. Gentle rubbing facilitates penetration for long-lasting cleanliness and colour brightness. After drying the carpet can be walked upon. The contents of the 5 l canister should be applied by a high pressure garden spray or an electric spray pistol.

Note: Take care of sufficient ventilation while and after working with Baygard Carpet Protection Spray. Do not inhale fumes. Do not mix Baygard Carpet Protection Spray with cleaning products.

Consumption: 1 l = 40 m²

4. Technical Data

pH-level: approx. 6.5 (concentrate)
Product code for cleaning and care products (Giscode): GE 50

Data on ingredients (EC recommendation): Contains polysiloxan derivate, alcohol.

Baygard Carpet Protection Spray should be stored in a cool, dry place in its closed original container. Keep locked up and out of the reach of children.

Baygard Carpet Protection Spray

The above advice on procedure for use is based on the best of our knowledge and the latest information available on cleaning technology. For this reason, when using our quality products, no damage will be incurred to the materials to be cleaned if strict attention is paid to the instructions printed on the container and the procedure suggested by us is followed. The use to which our products are put is, however, beyond our control. It is the responsibility of the user and does not release the user from making his own checks of the products supplied by us as to their suitability for the intended procedure and purposes. The information supplied by us is therefore non-binding and cannot be used as a basis for establishing the company's liability for any damage incurred. This also includes the infringement of any rights for the protection of third parties.
