Floor Mat

1. Product Description

Mat polish for the initial protection of newly-laid/thoroughly cleaned floors and subsequent routine cleaning. When dry, it forms an anti-slip mat finish. Ideal for domestic use.

2. Areas of Application

Vinyl and linoleum floors. Use on rubber floors is possible only under certain circumstances and should be checked before use.

3. Method of Application

Initial Protection:
Shake Floor Mat well before use. Then apply an even, thin, undiluted coat lengthways to the surface of the cleaned floor (after installation or stripped), using the Polish Applicator System or the Quick Step System. When the protective film is firm to walk on (after approximately 1 hour), repeat the procedure in the crossways direction. Allow the film to dry for at least 12 hours before the floor is walked on, better still would be overnight.

Consumption: 1 l = 20 m² per coat.

Routine Cleaning:
Dilute Floor Mat in a ratio of 1:200 (50 ml to 10 litres of water) and wet mop the floor with this solution.

Consumption: 1 l = 1000 m²

Notes: Ensure that there is sufficient ventilation but avoid exposure to drafts and strong sunlight during application and drying processes and protect the surface from dust. Turn off under-floor central heating in good time prior to use.

4. Technical Data

pH-level: 7.5 (concentrate)
Product code for cleaning and care products (Giscode): GE 10

Data on ingredients (EC recommendation): less than 5% non-ionic surfactants. Contains preservatives. Other ingredients: care components, additives and perfume.
Floor Mat should be stored in a cool, dry place in its closed original container. Keep locked up and out of the reach of children. Protect from frost.

5. Quality Inspection

Certified in Germany by the Forschungs- und Prüfinstitut für Facility Management GmbH, Metzingen (FIGR)

6. Unit Sizes

15 x 750 ml bottles

Art.-No. 2617075016

The above advice on procedure for use is based on the best of our knowledge and the latest information available on cleaning technology. For this reason, when using our quality products, no damage will be incurred to the materials to be cleaned if strict attention is paid to the instructions printed on the container and the procedure suggested by us is followed. The use to which our products are put is, however, beyond our control. It is the responsibility of the user and does not release the user from making his own checks of the products supplied by us as to their suitability for the intended procedure and purposes. The information supplied by us is therefore non-binding and cannot be used as a basis for establishing the company’s liability for any damage incurred. This also includes the infringement of any rights for the protection of third parties.
