eukula H2Oil care

1. PRODUCT DESCRIPTION

Water-based dispersion care with care components based on natural oils for regular refreshing of oiled wood and cork floors. This makes floor care easy. Simply apply with a mop and you're done - no polishing. The floor gets a high-quality satin look and optimal protection.

- Slightly layer-forming.
- Reduces dirt adhesion and the time needed for day-to-day maintenance.
- Facilitates routine cleaning.
- Avoid excessive application of care products that darken due to prolonged use.

Observe our care instructions under www.eukula.com.

2. APPLICATION

Thoroughly clean the floor before application. We recommend using a green pad and eukula clean .

Shake up well. Apply undiluted with the Dr. Schutz Polish Applicator or the Dr. Schutz Professional Mop at a minimum of 15 °C in an even, thin film to the surface in the direction of installation, after it has been thoroughly or thoroughly cleaned and dried. For increased protection, repeat the application when the care film is resistant to foot traffic.

Please note:

- Avoid strong sunlight and draughts during application.
- Switch off under-floor heating well in advance.
- Avoid excessive application of care products that darken due to prolonged use. An occasional stripping removes all care components, worn care films and possible accumulations of impurities from the surface. We recommend for this: eukula intensive cleaner , eukula professional remover . After stripping, a floor must be re-treated.

3. CONSUMPTION

25-30 g/m² per application (coverage: 30-40 m²/l)

4. DRYING TIME

eukula[®]
WOOD.FLOOR.LOVE

eukula H2Oil care

Can be carefully walked on, or worked on again after the water has evaporated (30-60 minutes)
. Can be used with caution 12 hours after the last layer has dried.

5. STORAGE

Protect from frost. Store in a cool dry place. Keep out of the reach of children.

6. TECHNICAL DATA

Ingredients: water / modified vegetable oils / polyacrylate / polyurethane / glycol ether / silicic acids / waxes / additives / perfumes TETRAMETHYL ACETYLOCTAHYDRONAPHTHALENES / preservation agents BRONOPOL BENZISOTHIAZOLINONE METHYLCHLOROISOTHIAZOLINONE METHYLISOTHIAZOLINONE / Contains reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one and 2-methyl-2H-isothiazol-3-one (3:1).
