

eukula[®]
WOOD.FLOOR.LOVE

eukula intensive cleaner

1. PRODUCT DESCRIPTION

Gentle special stripper. For removing old residues of wipe-over care products and polymer dispersion films on wood and cork floors. For intensive cleaning of oiled and waxed floors. For residential and commercial applications.

- Neutral cleaner without care effect based on highly effective surfactants and alcohols.
- Removes stains and shoe marks.

2. APPLICATION

Remove coarse dirt by sweeping or vacuuming. When used on lacquered floors, apply undiluted to the floor with a wide mop and scrub with a green pad. Take up the dirt water and immediately wipe with clear water until damp. Dilute 1:3 with water before applying to oiled floors. For strip cleaning of lacquered wood floors, keep the amount of water and contact time low due to the risk of run-ins and spotting.

After stripping, a floor must be re-treated. (*)

Please note:

- Before use, test substrate for material suitability and colourfastness in an inconspicuous area.
- If possible, clean in pairs, with the first person dissolving the care film and the second immediately vacuuming up the resulting dirt.
- Adjacent areas are effectively protected with Dr. Schutz Safe Tape.
- It is recommended to work with a mono-disc machine, on smaller surfaces also with the Padmaster.
- Prolonged exposure of water-based lacquers to the product can lead to the temporary formation of milky stains. Therefore, keep the exposure time to a minimum and never leave the floor wet for a longer period of time.

3. CONSUMPTION

100 ml/m² (10 m²/l).

4. STORAGE

eukula[®]
WOOD.FLOOR.LOVE

eukula intensive cleaner

Store in a cool dry place. Keep out of the reach of children.

5. TECHNICAL DATA

Ingredients: water / less than 5% non-ionic surfactants , anionic surfactants / perfumes LIMONENE / Alcohols

GISCODE GU50 (daily cleaning agent, containing solvents, unmarked) (Germany)

ADR/RID: Not a dangerous good as defined by transport regulations.

CLP/GHS: no labelling obligation. UFI: 4JD0-20J0-8008-ER5J

Further information on labelling and on safe handling can be found in the current Safety Data Sheet.

Even when using low-pollution products, the usual safety measures are to be observed. Keep away from children. Completely emptied containers can be disposed of with household waste or with the collection of recyclables.

6. SPECIAL NOTES

- If it is not possible to remove an old and excessively thick care layer, the much stronger products Dr. Schutz Clean & Strip or even Dr. Schutz Turbo Strip can be used. These products are only recommended for experienced users. In individual cases, lacquer dissolution or wood discolouration may occur.
- In individual cases, depending on the individual conditions, wood discolouration starting from joints due to the effect of water is possible.
