## 1 PRODUCT DESCRIPTION

Intended for the removal of water-soluble stains, this product is particularly gentle to dyes and fibres. Solvent free. Does not degrease treated floor coverings.

## 2 AREAS OF APPLICATION

Natural fibre carpets and oriental carpets (for instance, wool, silk, coir, jute, sisal).

Please pay attention to our technical instructions specifically for floors and buildings under [www.dr-schutz.com](http://www.dr-schutz.com)

## 3 APPLICATION

First dab up liquids using absorbent cloths. Take up loose dirt with the vacuum cleaner.

Spray Alibaba Stain Remover onto a soft, absorbent cloth and loosen the stain by dabbing it with this cloth, working from the edges of the stain towards the centre. Do not rub and do not soak the floor. Remove loosened dirt by dabbing with a dry part of the cloth. In case of stubborn stains, repeat the process as necessary. Then treat with clear water and subsequently dab dry. If necessary, place the cloth on the treated area, weigh it down somewhat and allow it to stand for a time until the liquid has been removed completely from the carpet.

**Note:** Do not inhale fumes. Before use, test the flooring with Alibaba Stain Remover on an inconspicuous area for colourfastness and material suitability. Reactions in the carpet fibres caused by the presence of stains may limit the effectiveness of Alibaba Stain Remover.

## 4 CONSUMPTION

As required.

## 5 STORAGE

Store in cool, dry conditions in well sealed receptacles, protect from frost. Store under lock and key and out of the reach of children.
