

Baygard Carpet Protection Spray

1 PRODUCT DESCRIPTION

Dirt-resistant long-lasting protection for textile floor coverings. Envelops the fibres in an invisible protective finish. Dirt adhesion to carpet fibres is reduced and dirt is therefore more easily removed with routine cleaning. The result is a cleaner carpet floor with clear colours and no greying. Baygard Carpet Protection Spray stabilises carpet pile and supports the natural resilience of the carpet fibres.

Any remaining distortion and matting is therefore reduced and the appearance of a trodden-down carpet is therefore avoided. The lambskin effect seen after wet cleaning thick shag-pile carpet is a thing of the past! The result is an improved preservation of carpet structure and pattern as well as optimal protection from greying and matting. Baygard Carpet Protection Spray is resistant to vacuum cleaning and mechanical influences (such as wear and tear) for up to three years. Baygard Carpet Protection Spray also keeps textile wall coverings and textile carpets clean and low-maintenance. There is virtually no staining of textile wall coverings and textile carpets due to strong air movement, especially in heated or air-conditioned areas.

2 AREAS OF APPLICATION

Floor coverings (carpets) of polyamid, wool, cotton, polyacryl, polypropylene etc. or mixture of them, upholstery and textile wall-coverings.

Please pay attention to our technical instructions specifically for floors and buildings under www.dr-schutz.com

3 METHOD OF APPLICATION

On new clean carpet, textile wall-covering or upholstery spray Baygard Carpet Protection Spray evenly and crosswise, i.e. from left to right, up and down. Soiled carpets must first be cleaned thoroughly with Concentrated Carpet Cleaner before application of Baygard Carpet Protection Spray. Spray product onto the still damp surface. Gentle rubbing facilitates penetration for long-lasting cleanliness and colour brightness. After drying the carpet can be walked upon. The contents of the 5 l canister should be applied by a high pressure garden spray or an electric spray pistol.

Note: Take care of sufficient ventilation while and after working with Baygard Carpet Protection Spray. Do not inhale fumes. Do not mix Baygard Carpet Protection Spray with cleaning products.

4 CONSUMPTION

1 l = 40 m²

5 STORAGE

Baygard Carpet Protection Spray should be stored in a cool, dry place in its closed original container. Protect from frost. Keep locked up and out of the reach of children.
