

Intensive Cleaner (for all outdoor areas)

1 PRODUCT DESCRIPTION

Gentle special basic Strip & Cleaner for dirty and weathered stones, wood and WPC surfaces in outdoor areas. Thoroughly effective and powerful against stains, yet gentle with material. Even stubborn stains can be removed after a short soak-in time.

2 AREAS OF APPLICATION

For terraces, furniture, walls etc. made of natural and synthetic stones, paved surfaces, hard and soft woods and WPC areas. Please observe the specific care instructions of the manufacturer.

3 APPLICATION

Intensive cleaner for all outdoor surfaces diluted with water in a ratio of 1:3 up to 1:5. If necessary, can be used undiluted for stubborn stains. Spread the cleaning solution onto the pre-moistened area and allow to soak in for approx. 10 minutes. Work on the floor surface with a scrubber, brush, or Multi Clean 350 (with a suitable scrubbing brush).

Take up the dirty solution with Multi Clean 350, a spray-extractor or with an absorbent mop, then rinse with clear water until it has been completely removed.

Please note: do not allow the Intensive Cleaner to dry on the surface of all outdoor areas - therefore work in sections. Before stripping and basic cleaning, test sensitive materials for color fastness and resistance at an inconspicuous place. If necessary, dilute the Intensive Cleaner with more water and allow several shorter soak-in stages.

4 CONSUMPTION

3-5 litres per 100 sq.m (dilution 1:1 up to 1:3)
10-15 Litres per 100 m² (undiluted)

5 STORAGE

Protect against frost. Store in a cool, dry place. Will keep for 24 months in unopened, original canister from the date of manufacture. Keep coating materials out of the reach of children.

6 TECHNICAL DATA

Contained substances: water, less than 5% anionic tenside, non-ionic tenside, fragrances, LIMONENE, solvent
GISCODE: GG0

Intensive Cleaner (for all outdoor areas)
