

Product-Information

Terrace Oil / Bangkirai Oil

Special oil for outdoor use, based on vegetable oils. Due to the oil's deep penetrating properties, the wood is preserved while its pores remain open and it continues to breathe actively. The natural beauty and structure of the wood are optically enhanced.

Canister sizes: 0.75 litre / 2.5 litres
Giscode Ö 60

Areas of application: for the impregnation of wooden terraces made of all kinds of wood. Also suitable for the treatment of garden furniture and other wooden objects in outdoor areas.

Application: can be applied at an outdoor temperature of minimum 10°C. The wood to be impregnated must be clean and dry. If necessary, sand off any remnants of old lacquer or similar, in which case the last sanding stage should be carried out with 120 grain sandpaper.

Preparation of the undercoat: apply the oil evenly with a brush, or with a fluff-free cloth, in the direction of the wood grain. After about 30 minutes soaking in, go over any oil which has not been absorbed with a brush, or with a fluff-free cloth, until all surplus oil has been completely removed. After allowing the wood to dry over-night, apply another coat of oil with a brush or fluff-free cloth. Continue working wet on wet until the wood has become entirely saturated. Remove any surplus oil completely.

Contents: modified oils, odourless test benzine, lead-free sikkatives

Material consumption on softwood: 200-250mL/m²
Hardwood: 100-120mL/m²

Drying time when well ventilated: 12 hours.

. Thinner: do not dilute. The product is ready to apply at the right consistency.

Storage and transport: +5°C up to +25°C, 36 months stable storage, non-hazardous material as classified by ADR

The above advice on procedure for use is based on the best of our knowledge and the latest information available on cleaning technology. For this reason, when using our quality products, no damage will be incurred to the materials to be cleaned if strict attention is paid to the instructions printed on the container and the procedure suggested by us is followed. The use to which our products are put is, however, beyond our control. It is the responsibility of the user and does not release the user from making his own checks of the products supplied by us as to their suitability for the intended procedure and purposes. The information supplied by us is therefore non-binding and cannot be used as a basis for establishing the company's liability for any damage incurred. This also includes the infringement of any rights for the protection of third parties.
