

eukula®

PERFECT FOR PROFES- SIONALS

**THE NEW EUKU
PREMIUM HARDWAX OIL+**

Easy application, fast drying

eukula – a brand of the **Dr. Schutz®** GROUP

A FIRST-CLASS FINISH WITH NATURAL RAW MATERIALS

Many customers want the most natural, but also hard-wearing oil finish for their high quality floor-boards, wood or cork floors. With the new **euku premium hardwax oil+ system** from eukula you have the perfect program at your disposal in order to fulfill the wishes of your customers.

The euku premium hardwax oil+ system offers wood-floor professionals comfortable application, combined with high quality ingredients and especially short drying times. The perfect package for the specialist.

THE ADVANTAGES OF EUKU PREMIUM HARDWAX OIL+

- ☑ Very economical consumption
- ☑ 1-day-system thanks to quick-drying
- ☑ High filling capacity, warm colour effect, wonderful surface feel and appearance
- ☑ Good penetration properties, increased water resistance, elastic film
- ☑ Very resistant against stains and withstands sanding
- ☑ Easy application with the euku hardwax oil roller
- ☑ Can be combined with additives in the modular system

EASY AND FAST TO APPLY, MANY AREAS OF APPLICATION

QUICK AND COMFORTABLE APPLICATION,
FIRST-CLASS RESULTS.

The deeply penetrating and quick-drying hard-wax oil from eukula has been specially developed for the initial treatment and renovation of wood surfaces. Thanks to its quick drying, you get a hard-wearing protective coat in just one day, even with two applications, for all sanded wood, parquet and cork floors, as well as for OSB boards.

The euku premium hardwax oil+ is available in two gloss grades: mat and satin.

RECOMMENDED EQUIPMENT

Hardwax Oil Roller
in 25 cm and 10 cm

Broad brush

20 cm for applying oil especially
for structured wood surfaces

THE NEW HARD- WAX OIL+ MODU- LAR SYSTEM

Perfectly coordinated modules
for first class results

EUKU PREMIUM HARDWAX OIL+

Layer-forming, deeply penetrating oil on
the basis of vegetable oils for easy-care
surfaces with a natural appearance.

EUKU MASTER FS

Only for professional use

Reactive finish. Euku premium hardwax
oil+ in combination with euku master
FS becomes a 2-component oil of the
highest quality. Free of solvents, impro-
ved oil hardening properties, increased
surface durability.

CHOOSE FROM ADDITIVES OF THE HIGHEST QUALITY

EUKU PREMIUM NATURE ADD

For a raw wood look

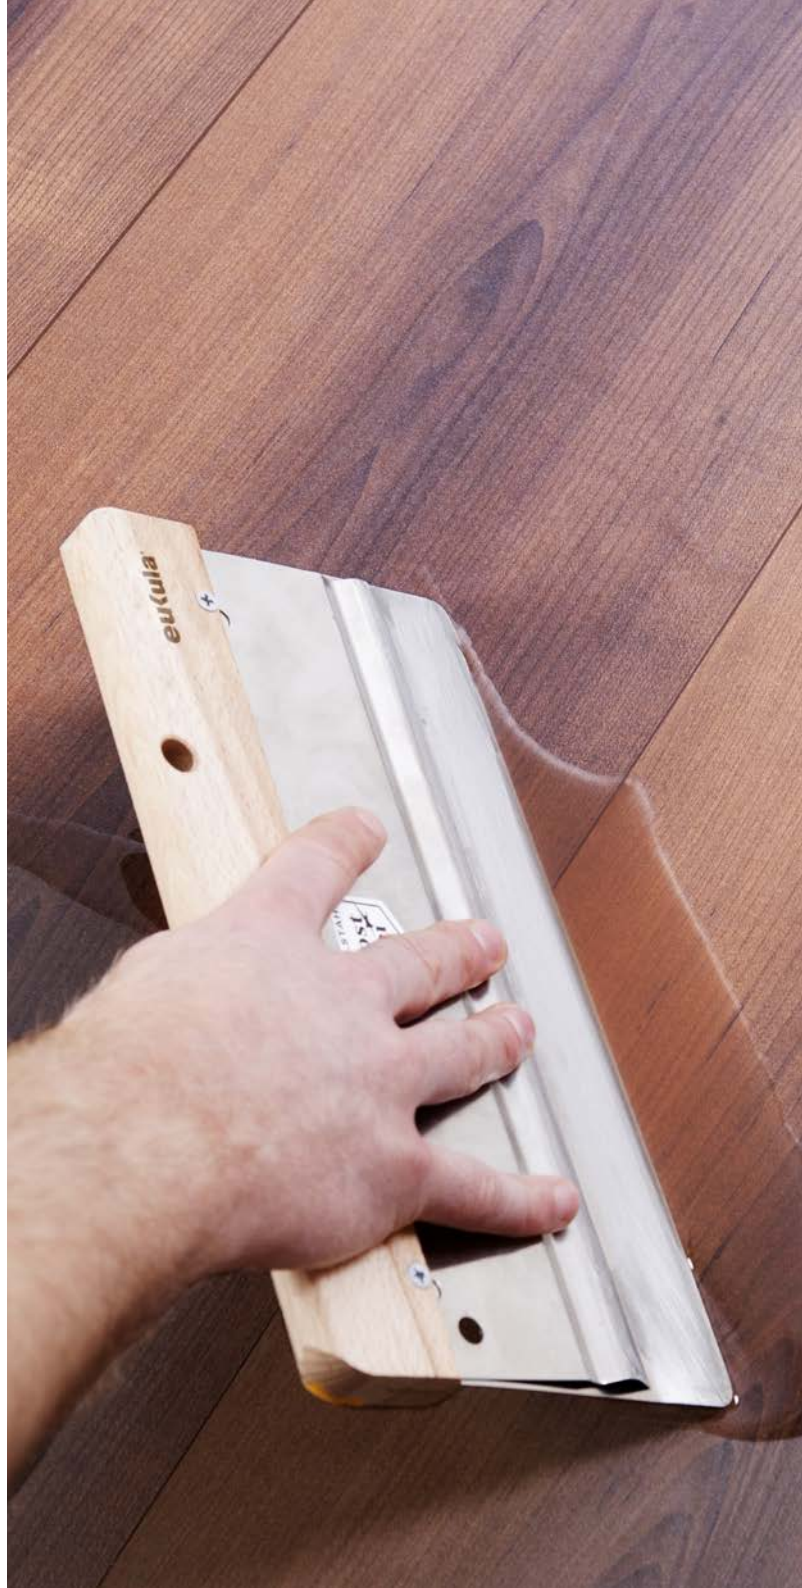

The effect of nature add is that the grain enhancement of the product is reduced. Therefore you achieve an especially natural finish, with an appearance like untreated. For particularly easy use the additive is available as a fluid compound.

EUKU PREMIUM ANTISLIP R10 ADD

For especially slip-resistant results

The effect of anti-slip R 10 add is that the structure-building part of the product is increased. Therefore you achieve the slip-resistant class R10 in accordance with BGR 181 and DIN 51130. Without this extra additive floors treated with euku premium hardwax oil+ achieve the slip-resistant class R9.

EUKU HARDWAX CARE

The exclusive care for the euku
premium hardwax oil+ system

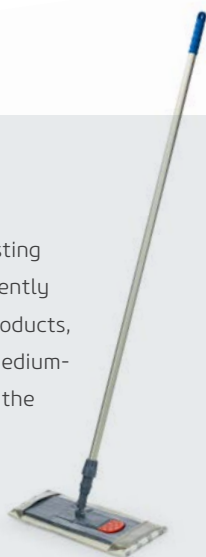

EUKU HARDWAX CARE

For the care and refreshing of hardwax oiled floors we recommend the new euku hardwax care. This water-based professional care product protects the floor from abrasion and the wood against water.

RECOMMENDED EQUIPMENT

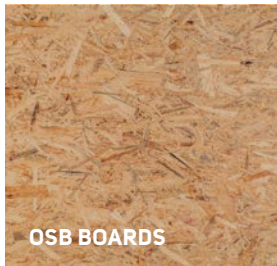

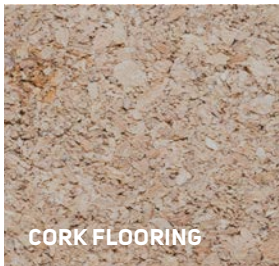

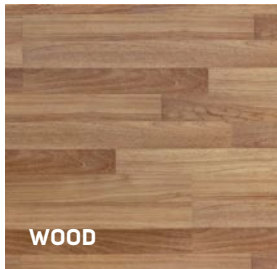

Dr. Schutz Professional Mop

The Dr. Schutz Professional Mop, consisting of four individual components, is eminently suitable for applying all eukula care products, for day to day cleaning on small and medium-sized areas. Enables quick work due to the trouble-free fitting of the mop covers. The covers are available in cotton or micro-fibre versions.

SUITABLE FOR THE FOLLOWING TYPES OF FLOOR:

The new hard-wax oil+ system from eukula offers you premium professional quality for the protection and maintenance of high value parquet, wood, cork and OSB floors. Because the system has been developed on the basis of vegetable oils, it is more natural than other conventional hard-wax oil products and therefore especially suitable for sensitive areas, such as kindergartens, or for customers with distinct environmental expectations.
